AQF Council – Benefits for students

For students, the benefits of these arrangements are that new or further formal learning:

- is built on existing skills and knowledge;
- focuses on developing new skills and knowledge;
- reduces real costs and opportunity costs associated with gaining qualifications; and
- supports learner transfer and progression into and between qualifications.

AQF Council – Benefits for institutions

For education and training providers, the benefits of credit arrangements include:

- increasing their responsiveness to students' education or training needs;
- facilitating access to qualifications;
- support in designing more coherent pathways for students;
- more effective use of teaching resources; and
- building new or improved relationships and collaborative opportunities with other education and training providers and sectors.

Exploring articulation with private providers

Project aims

The Articulation Partnership Project has the following four key aims:

1. Connecting Industry to Articulation Pathways
2. Exploring the transferability of articulation pathway models
3. Addressing student transition and awareness issues
4. Information and Systems

Exploring articulation with private providers

Key findings thus far:

Relationships with the right people as the most important factor influencing the success of articulation arrangements. In summary:

- Mutual benefit, both from a commercial and from a teaching and learning perspective;
- Relationship building as a key element;
- Quality assurance: maintaining quality outcomes, ethical practice and integrity, and understanding each other's operations;
- Working collaboratively to achieve successful outcomes that are the best possible outcome for the student.

Where does that leave us?

The current education climate calls for greater synergy between private education providers and universities.

Exploring articulation with private providers

“The current education climate calls for greater synergy between private education providers and universities.”

University of Canberra Vice Chancellor,
Professor Stephen Parker

August 2010

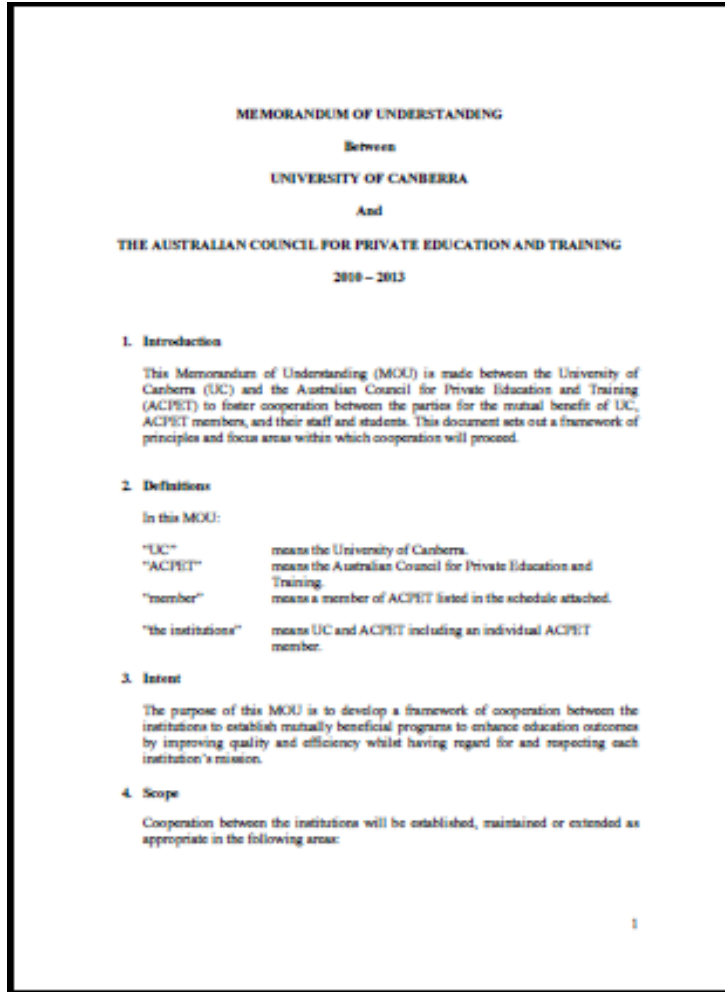

Exploring articulation with private providers

Professor Parker and ACPET ACT Chair Lisa Materano sign MOU between UC and ACPET.

August 2010

Exploring articulation with private providers

The Memorandum of Understanding (MOU) between the University of Canberra (UC) and the Australian Council for Private Education and Training (ACPET) to foster cooperation between the parties for the mutual benefit of UC, ACPET members, students.
