# CERTIFICATION PROGRAM

## Why Certification?

Wikipedia definition of Certification

*'An impartial third party endorsement of an individual's professional knowledge and experience'*

The ACS certification is based on

## Skills Framework for the Information Age

- It's the most widely used ICT skills framework globally.
- It can provide employers a roadmap of ICT skills necessary to achieve desired objectives.
- It allows ICT practitioners to benchmark their skills for particular jobs and career paths
- It's being implemented by federal Public Service & other major organisations
- Is a practical help to employers in identifying skills gap and needs
- Is regularly reviewed & updated to reflect current ICT profession needs.

# The ACS Certification Program

## Composed of 3 Categories

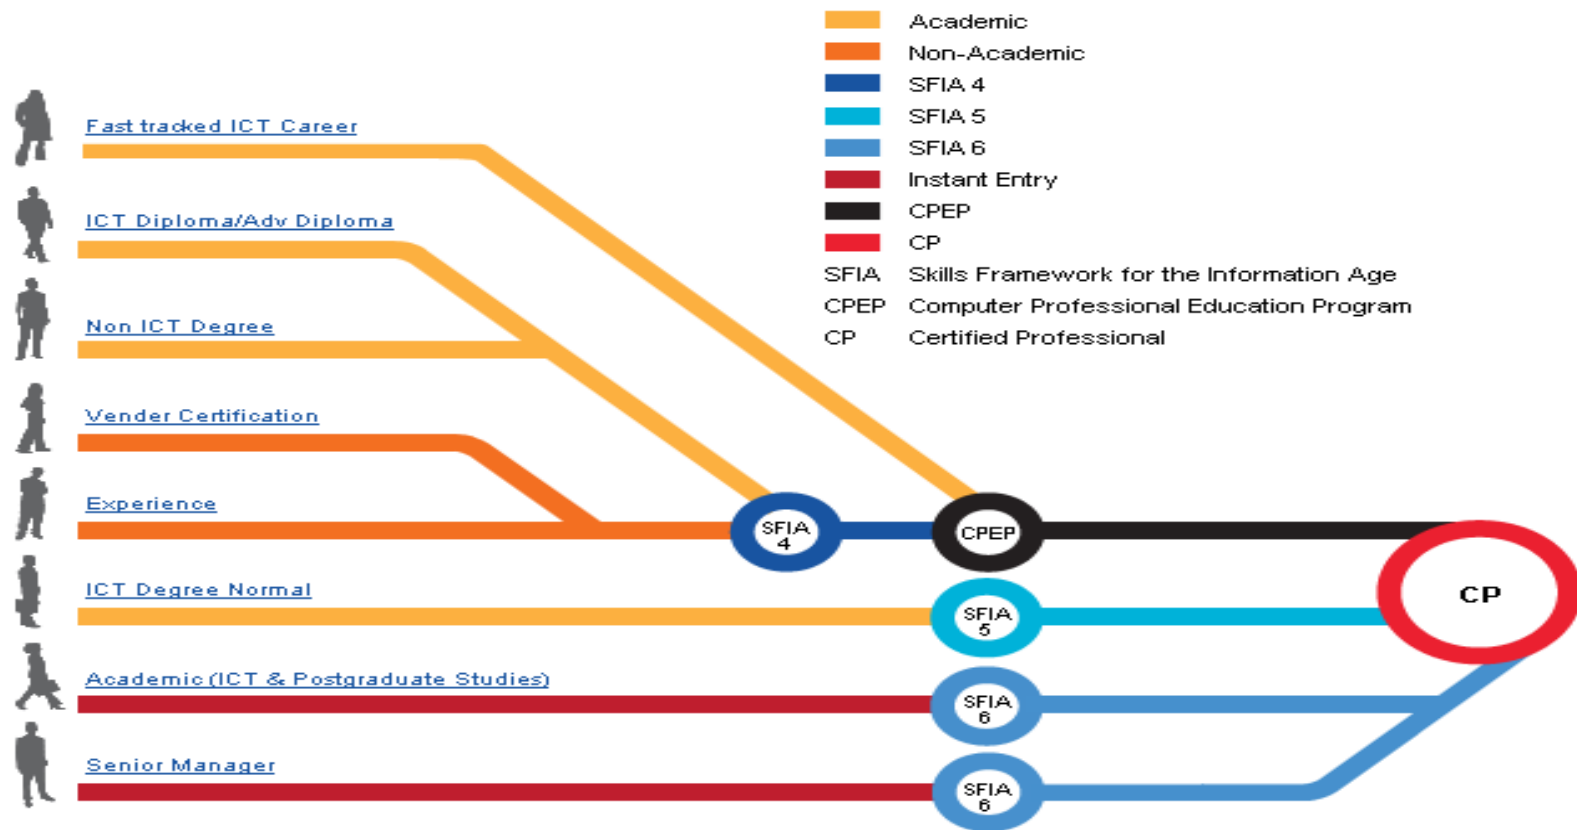

- Certified Technologist
