

Identifying the initiatives that influence 1st year female students choosing computing degrees
A/Prof Therese Keane (Swinburne Uni), Dr Andreea Molnar (Swinburne Uni), Prof Rosemary Stockdale (Griffith Uni)

This project will determine if established programs, interventions or events have influenced the decision of female first-year students to undertake a computing degree.

Female students will be asked to identify whether any specific high school programs / events / interventions have influenced their decisions in choosing to study ICT at university.

What are we going to do?

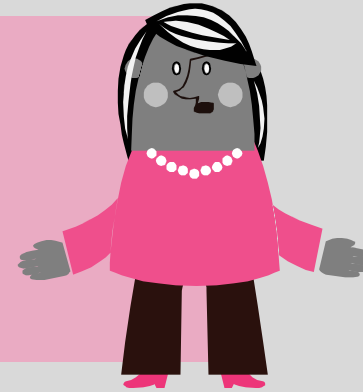

Questionnaire

Our questionnaire will be sent to the contacts identified for distribution to first year female students next week.

List of ICT Accredited courses

ICT Accredited courses in Vic & QLD have been identified and contacts have been identified.

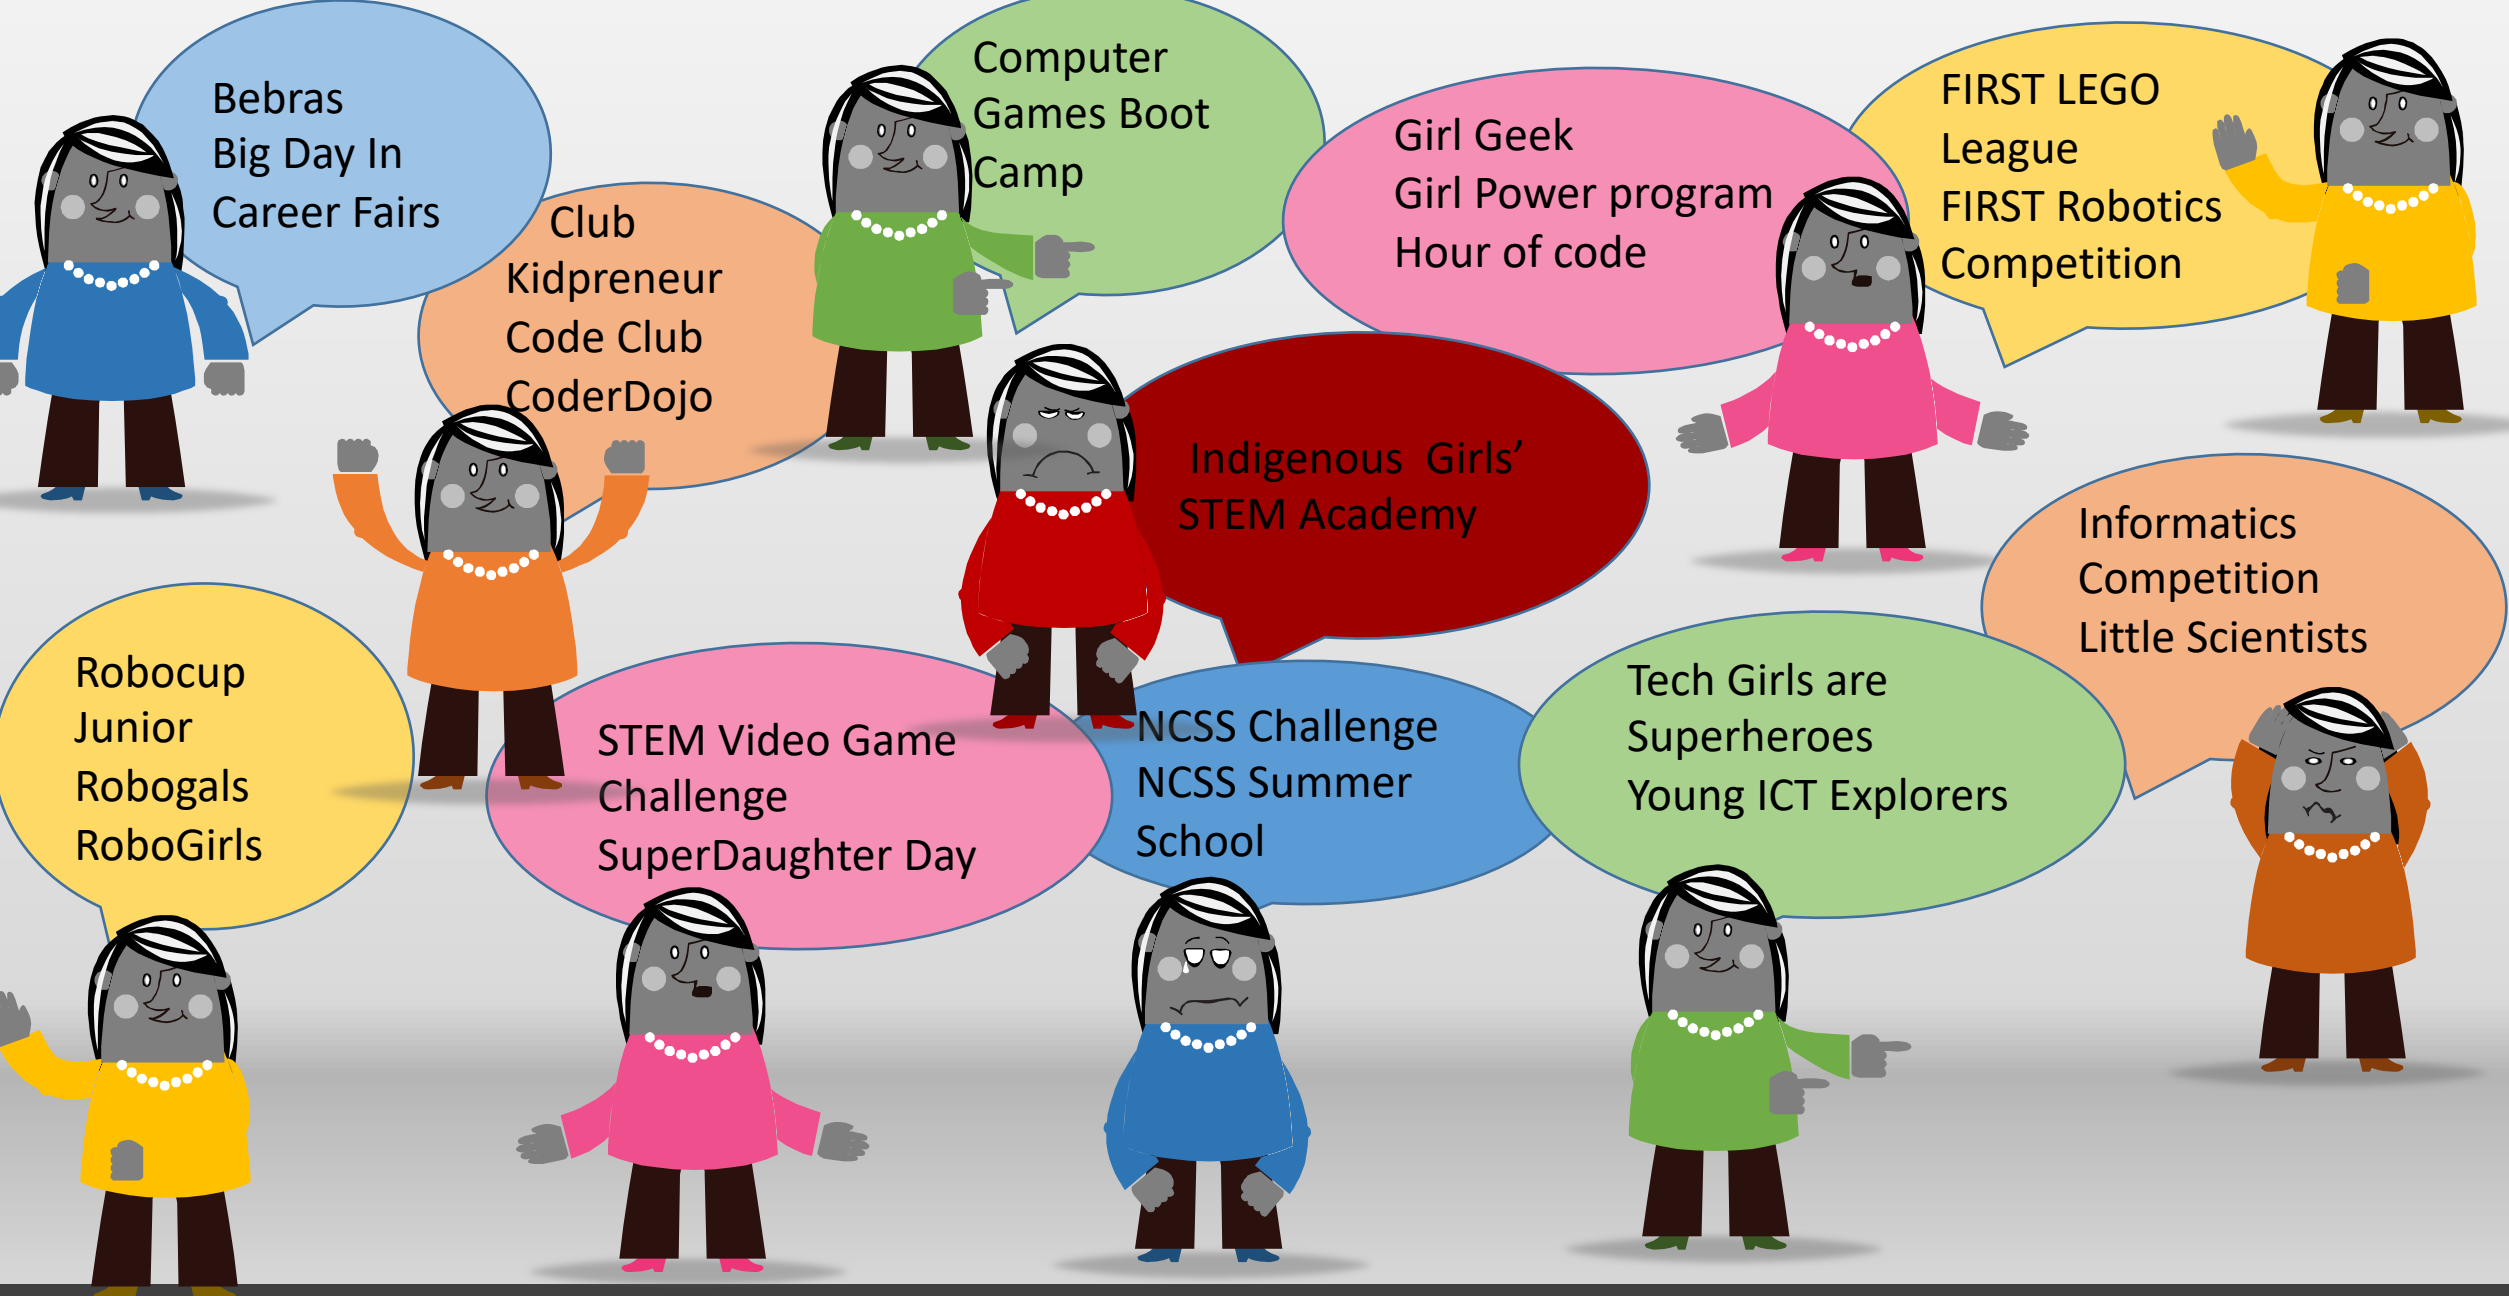

Ethics Clearance

Ethics approval has been given to conduct questionnaires in Vic & QLD
